

Rolling Review of Requirements (RRR) Follow-up workshops

(RRR-Wrkshp-2, Virtual meeting, 5 Sept 2023)

AA 1.3: Update from the Secretariat (Krunoslav Premec, SO/ONM)

WMO OMM

World Meteorological Organization
Organisation météorologique mondiale

Updated RR(o)R

- Updated RRR website: [The Rolling Review of Requirements process \(2023 update\) | World Meteorological Organization \(wmo.int\)](#)
- For the most recent details about PoCs, Coordinators, owners, see: [RRR - Earth System Application Categories and Application Areas | World Meteorological Organization \(wmo.int\)](#)
- The old Statements of Guidance are available at: [The Rolling Review of Requirements process \(legacy version\) | World Meteorological Organization \(wmo.int\)](#)

*Note. the updated process of the **Rolling Review of Requirements (RRR) for observations** (INFCOM- 2, document [INF 6.1\(3\)](#) approved through EC-76 [Resolution 18 Amendments to the Manual on the WMO Integrated Global Observing System](#) (WMO-No. 1160). – still valid but the list of AAs is not maintained.*

Updated RR(o)R

- Updated OSCAR/Requirements:

[WMO OSCAR | The repository of requirements for observation of physical variables](#)

- Some final arrangements, e.g. “Themes” still underway.
- Some issues with entering data in the database are being solved
